## *Renaissance Grand Rembrandt Model in the Bridges of Oakton Community.*

A brick and stone facade creates the solid exterior of this grand colonial. A covered portico gives a warm welcome to guests as they enter the home. A two story foyer with hardwood flooring and a curved staircase extends the friendly greeting. The formal living and dining rooms grace each side of the foyer with columns to define the space. French doors accent the spacious study. The foyer opens to the reception area for a dramatic view of the upper rotunda. The gourmet kitchen is a chef's dream offering granite counters, decora cabinetry, and a breakfast bar. Entertaining is easy and convenient with a butler's pantry connecting the dining room to the kitchen. The large breakfast faces the rear yard for a wonderful open view. A secondary staircase in the kitchen leads to the upper level. A nearby mudroom located off the kitchen hall is equipped with laundry facilities. An extraordinary coffered ceiling canopies the sizeable family room, with a floor to ceiling stone fireplace as its backdrop.

Upstairs, the bedrooms are joined by a stunning bridge that overlooks the foyer and family room. The master bedroom suite includes large his-and-her walk-in closets, and a luxurious master bathroom. The private sitting area personalizes this space. Three additional bedrooms, each with a full bath, occupy the remainder of the second floor.

Entertaining spaces continue with the lower level recreation room with a wet bar. A media room, exercise room, and wine cellar complete the space.
